2012 Training Schedule

Rod Pumping Design & Analysis

This is a 3 day technical class for the student wanting to understand and use the equations behind rod pumping. Basic rod pumping from designs to analysis will be covered with in-depth knowledge of the equations behind the rod pumping system.

**** There is an option on Friday morning to take a tour of a local Pump Company, when registering, please let me know if you are interested.

Lufkin Well Manager Rod Pump Controller Forum

A one day class designed for the user of the Lufkin Well Manager Rod Pump Controller. Students will learn the components of the RPC, how to set it up and operate. This class is geared for field technicians, lease operators and new hires. There is no Dynagraph Interpretation in this class.

Lufkin Well Manager Variable Speed Drive Forum

A one day class designed for the user of the Lufkin Well Manager Variable Speed Drive. Students will learn the components of the VSD, how to setup and operate. This class is geared for field technicians, lease operators and new hires. There is no Dynagraph Interpretation in this class.

SROD Forum

This class will be by request only. Please call for details.

**** STUDENTS MUST BRING A LAPTOP WITH THE CURRENT VERSION OF SROD LOADED AND OPERATIONAL TO CLASS. IF YOU DO NOT HAVE THE SROD PROGRAM, PLEASE CONTACT OUR HOUSTON OFFICE FOR THE 30 DAY FREE TRIAL PROGRAM. 281-495-1100.
